D 5

Wet adhesive for bonding all standard PVC flooring

STAUF KLEBSTOFFWERK GMBH

Oberhausener Str. 1 . 57234 Wilnsdorf . Germany

12.2016/V1/500/RD

SAVES MONEY

WORKS EFFICIENTLY STAUF D 5 is the safe choice for all standard PVC floor coverings. Thanks to its low usage and extremely good price-performance-ratio, D 5 guarantees highly cost-effective bonding.

A further plus: The long open time gives you flexibility and results in stress-free working.

BONDS WELL

PUT YOUR MONEY ON A RELIABLE PARTNER

In addition to its impressive performance, D 5 is a convincing wet adhesive with formidable application characteristics. Take advantage of its excellent tack and spreadability as well as its high final strength and strong adhesive power in your daily work.

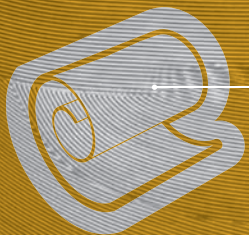

PROTECTS WELL

TAKES CARE OF THE CLIMATE With D 5, you not only protect your wallet but also your health and the room climate. As a dispersion adhesive, it is of course solvent-free, providing you with the assurance that no pollutants are emitted into the surrounding area; even in the long-term.

YOUR PARTNER FOR PVC FLOORING

- ✓ Outstanding initial adhesion
- ✓ Excellent spreadability
- ✓ Good wetting of floor covering
- ✓ Excellent thread formation
- ✓ Outstanding adhesive strength
- ✓ High final strength
- ✓ A sure bond
- ✓ Outstandingly economical

- PVC homogeneous/heterogeneous
- Quartz vinyl tiles
