# SPU 460

The all-rounder among  
parquet adhesives

**STAUF KLEBSTOFFWERK GMBH**

Oberhausener Str. 1 . 57234 Wilnsdorf . Germany

12.2015/W1/500/RD

# MULTI-TALENT

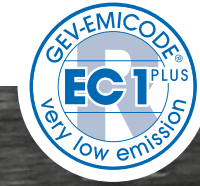

**MUST-HAVE** Everybody should have an all-rounder like this to hand: SPU 460 can be safely and easily applied to just about any type of parquet flooring. From ready-to-lay parquet flooring to solid floorboards up to 10:1 – this adhesive covers almost every conceivable application.

# PLEASANT

**EFFORTLESS** SPU 460 makes it easy for you: It cures fast and sets quickly. Its high shear strength, hard elastic deformability, excellent ridges and outstanding spreadability are further positive characteristics. Adhesive residue can be easily removed.

# HARMLESS

**USER-FRIENDLY** Awarded the highest possible EMICODE class EC 1 R<sup>PLUS</sup>, SPU 460 ensures a pleasant and healthy living environment: Our all-rounder is very low in emissions and at the same time solvent-free, requires no labelling and is isocyanate-free.

Handles up to 90% of the day-to-day business in the parquet laying sector
